

ex) Disjunction w/ Solution Sets.

Find the solution set for

$$(\underline{x > 3}) \vee (\underline{x < 7}) \quad x \in \mathbb{W}$$

or  $\leftrightarrow$  disjunction  $\leftrightarrow$  union

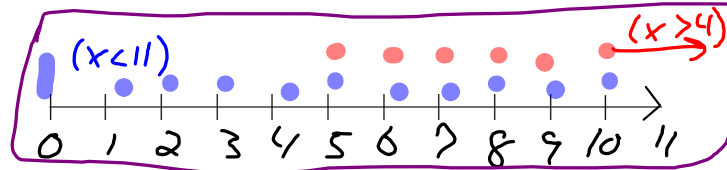

$$\{0, 1, 2, 3, \dots\} \text{ or } \mathbb{W}$$

ex) Disjunction w/ Solution Sets.

Find the solution set for

$$(\underline{x < 11}) \cup (\underline{x > 4}) \quad x \in \mathbb{N}$$

or  $\Rightarrow$  union

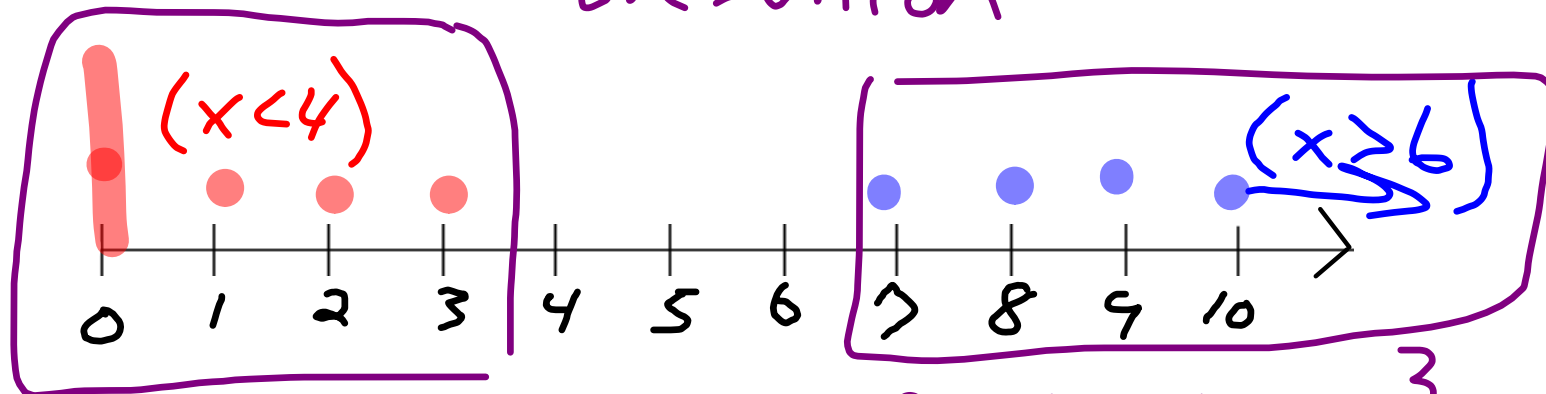

$\{0, 1, 2, 3, 4, \dots\}$  or  $\mathbb{N}$

ex) Disjunction w/ Solution Sets.

Find the solution set for

$$\underline{(x > 6)} \cup \underline{(x < 4)} \quad x \in \mathbb{W}$$

or  $\leftrightarrow$  union

$$\underline{\underline{\{0, 1, 2, 3, 7, 8, 9, 10, 11, \dots\}}}$$
