

Here you go for the spotlight.

In the bottom right corner of your screen is the launcher for the **SMART Tools**.

Single click on it and a menu will pop up.

One of the choices will be **floating tools**.

You can customize the floating tool bar through the **control panel**.

Let me know if you want to know how to do this.

The floating tool bar will have your **spotlight** feature on it.

There you go.

Let me know if you need more clarification.
